

**RESEARCH & DEVELOPMENT PROJECT
CYCLE 13 - PROJECT VN01
WEEKLY REPORT
30/10/2022 - 05/11/2022**

Current Sprint: Project Proposal & Research

Kanboard: <https://rnd-cycle13-vn01.atlassian.net/jira/software/c/projects/RC1V/boards/2>

Current:

- **To do: 0 tasks**
- **In progress: 3 tasks**
- **Done: 3 tasks**

I. Weekly Goals

1. Goals for this week

1. Deliver the Project Proposal presentation
2. Conclude the Project Proposal Sprint and Proposal phase
3. Begin the first research week of Research phase (estimated reviewing 5 papers / member)
4. Agree with the Client about requesting for changing the approach of the project

2. Goals for next week

1. Second research week of Research phase (estimated reviewing 5 papers / member)
2. Arrange meetings with acupuncturists to examine the idea and collect some specialized information

II. Detailed Progress report

1. Lê Trần Bá Tân (HCMUS: 1959035 - AUT: 21142355)

- Finished: Successfully delivered the project proposal
- Finished: Prepared draft questions for interviewing acupuncturists
- WIP: Reviewing 3 papers for this week

2. Hồ Ngọc Thảo Trang (HCMUS: 1959040 - AUT: 21142358)

- Finished: Completed the script, practice and presented the project proposal
- Finished: Review an article paper related to acupuncture combination

- WIP: Collect combinations of acupuncture points from 3 papers.

3. Phạm Đình Chương (HCMUS: 1959002 - AUT: 21142643)

- Finished: Completed the script for the presentation slide.
- Finished: Review 3 articles papers:
 - Data mining-based detection of acupuncture treatment on juvenile myopia.
 - Acupuncture for heart failure: a Bayesian network systematic review and meta-analysis protocol.
 - Exploring traditional acupuncture point selection patterns for pain control: data mining of randomised controlled clinical trials.
- WIP: Collect combinations of acupuncture points from 3 papers.

4. Nguyễn Cao Nhân (HCMUS: 1959024 - AUT: 21142377)

- Finished: Completed the draft version for the presentation slide + Completed verifying the final version
- Finished: Review 3 articles papers and collect combination of acupuncture points for 3 diseases:
 - Exploring the Clinical Point Selection Rules of Acupuncture and Moxibustion in the Treatment of Infantile Enuresis Based on Data Mining Technology
 - Investigating Prescriptions and Mechanisms of Acupuncture for Chronic Stable Angina Pectoris: An Association Rule Mining and Network Analysis Study
 - An Apriori Algorithm-Based Association Rule Analysis to Identify Acupoint Combinations for Treating Diabetic Gastroparesis
- WIP: Contacting with the office and acquire contact information for some acupuncturists in network
 - Current: Successfully contacted the academic affairs department and was sent contact information with 2 acupuncturists (they have also been informed about the request for meeting with the group)

III. Feedback & Comments
